

TOBIO İLAÇ SANAYİ VE TİCARET ANONİM ŞİRKETİ was established based on the conditions of various guidelines for pharmaceuticals and veterinary medications, and guidelines for medicinal products for human use, International Conference on Harmonization of Technical Requirements for Registration of Pharmaceuticals for Human Use guidelines (ICH guidelines), PIC/S Good Manufacturing Practices (GMP) guidelines issued by the Turkish Medicines and Medical Devices Agency of the Turkish Ministry of Health, and conditions stipulated by the World Health Organization (WHO).

- Our R&D approach aims to develop complex and innovative products.
- Our goal is to become accessible by providing high-quality and trustworthy products to domestic and foreign pharmaceutical markets.
- A further goal is to maintain our sustainability by manufacturing state-of-the-art technology products, investing in R&D projects, and supporting innovative development.
- Suppliers follow fairness and honesty principles and are transparent in their relations with customers and employees.
- The benefit of society and environmental protection are prioritized in our activities.

We are an institution that is aware of its responsibilities, contributes to domestic and national pharmaceutical production, and adopts a people-oriented approach.

The quality-oriented culture is maintained by giving high priority to the efficiency and safety of our products, the quality of data that support the regulatory application process, and our interaction with collaborative partners.

The workflow is maintained and finalized based on relevant quality regulations, rules and standards. Our policies involve valid principles and procedures necessary to manage our responsibilities effectively.
